

Updating Identifying Information for Gender Diverse Patients

An overview of how we can support any updates to your legal name, legal gender, chosen name, gender identity and pronouns in your medical record at Allegro Pediatrics.

Acknowledging Non-legal, Chosen Identifying Information

Allegro Pediatrics can update chosen identifying information without legal documentation. Please feel empowered to ask our providers or staff to update the following:

- **Chosen Name**
- **Chosen Pronouns**

While our staff and providers will be able to address you appropriately after this change, there are limitations to our electronic communications. Please be aware that the following fields are integrated into our electronic health record system, will remain on all electronic forms of communication, and cannot be changed without legal documentation.

- **Your Legal Name**
- **Your Legal Sex** (*as determined by physical anatomy at birth*)

**Any updates to chosen identifying information stay within Allegro and are not shared with specialists you may see outside of Allegro.*

Changing Your Legal Name and Sex:

If you have legally changed your name and/or sex with Washington state and your insurance company, you may submit one of the following documents via the [Patient Portal](#). This will allow us to update your legal name and/or sex within our electronic health record system.

Legal Document	Legal Name Change	Gender Marker Change
Court-issued Legal Name-change Document	X	
Birth Certificate	X	X
Social Security Card	X	
Passport	X	X
Washington State Identification Card	X	X
Driver's License	X	X
